“The Belt and Road Initiative” is a bridge of friendship crossing mountains and sea. It connects countries for trading, bringing people from all over the world closer together. It promotes unity and cooperation to start a new page for Mainland China and the world. The ring design is inspired by a bridge structure. The red gemstone in the centre symbolises a heart that represents power, unity and cohesion.

In addition, people connection and previous times are combined together which for two critical elements to represent the hourglass. The combination of Chinese ink painting and western art portraits presents a strong "east meet west" cultural linkage.
